https://linkedin.com/in/raudina

As a fresh graduate in Information Systems, I have hands-on experience in full-stack development experience from college projects, including system architecture design, database design, and application development using Laravel, HTML, and CSS. Also has a foundation in basic machine learning from undergraduate thesis work (Python, Jupyter Notebook). Understanding of business processes (marketing, sales, customer analysis) complements technical skills to support technology-driven business growth.

Working Experience

PT Bank Negara Indonesia (Persero) Tbk (BNI) | Jakarta, Indonesia Sept 2026 – Present
IT & Digital Operations 2 Intern

- Learning the managed applications and architecture of the Application Development division.
- Gaining hands-on exposure to webMethods, an enterprise integration platform.
- Supporting IT & Digital Operations administration, including data recording and document management per BNI governance standards.

Sibiti | Surabaya, Indonesia Jan 2025 – June 2025
Fullstack Developer Intern

- Maintain and optimize web application performance, including debugging and troubleshooting.
- Update and enhance features based on business needs.
- Manage and improve backend efficiency and database performance.
- Collaborate with the team to ensure system stability and security.

PT Telkom Indonesia Tbk | Surabaya, Indonesia Feb 2022 – June 2025
Sales & Marketing Intern - RLEGS (Regional Large Enterprise & Government Services)

- Conducted customer analysis and identification using IVCA tools to enhance market segmentation and targeting.
- Collaborated with cross-functional teams to optimize customer engagement and satisfaction.
- Provided insights and recommendations based on data-driven analysis to improve service offerings and revenue generation.

Education Level

University Airlangga Aug 2022–Jan 2026

Information Systems (GPA 3.58/4.00)

- Undergraduate Information Systems Student.

Skills

- Programming Languages: Java, PHP, Python
- Web Development: Laravel, MySQL, CSS, Bootstrap
- Data Analytics & Visualization: Tableau, KNIME
- Office Tools: Microsoft Office Suite (Word, Excel, PowerPoint)

Project & Training

MedGuide (Medicine Guide) 2024
Web Development Project

- Developed website frontend using HTML, CSS, and JavaScript.
- Implemented backend functionalities using the Laravel framework.

Model Stacking Ensemble for Heart Attack Risk Prediction on Imbalanced Data 2024–2025
Undergraduate Thesis

- Built a stacking ensemble model in Python to predict heart attack risk on an imbalanced dataset.
- Applied basic EDA and machine learning techniques for data preprocessing and model performance evaluation.

Microcredential: Digital Business, Innovation, and Entrepreneurship 2024
Training Program

- Completed training on cloud computing fundamentals and networking administration for digital entrepreneurs.
- Developed understanding of digital business models, innovation strategies, and technology-driven entrepreneurship.

PT NF Cipta Inovasi 2025
Codeless Data Science Participant

- Utilized no-code/low-code data analytics tools such as KNIME to process, analyze, and visualize datasets.
- Performed data preparation, transformation, and exploratory data analysis (EDA) using visual workflows.

Award and Organizational Experience

Award

- 1st place in the 2022 National Poster Design Competition with the theme "The Urgency of Digitalization in the World of Education" organized by Media Selaras Festival
- 3rd place in the 2022 Infographic Competition with the theme “Be Aware Of Digital Information Explosion” in UIN Tulungagung.

HIMSI (Himpunan Mahasiswa Sistem Informasi) 2022–2023
Staff of Academic Achievement Development Division

- Participated in organizing and learning about academic workshops.
- Collected information on various academic and non-academic competitions.

ISAC (Information System Airlangga Competition) 2022–2023
Treasurer

- Managed budgeting and financial planning for the ISAC event.
- Recorded and monitored income and expenses to ensure accurate financial tracking.

POINTER (Proses Orientasi dan Pengembangan Karakter) 2023–2024
Secretariat Expert Staff

- Provided logistical support for event implementation.
- Coordinated communication and coordination among team members to ensure smooth operations.

Bakti Airlangga – BEM Universitas Airlangga 2024–2025
Sponsorship and Business Funding

- Managed sponsorship administration, including partner coordination and documentation.
- Organized and monitored dana usaha (fundraising) activities to support community service programs.

Community Service Program (KKN) – Universitas Airlangga 2024–2025
Treasurer

- Conducted budget planning and financial control to support effective execution of community programs.
- Monitored budget realization and prepared financial statements to maintain accuracy, accountability, and financial transparency.
